BUILDING SUSTAINABLE ORGANIZATIONS THROUGH STRATEGIC LEADERSHIP, GOVERNANCE, AND HUMAN CAPITAL EXCELLENCE

PT Forisa Abadijaya Sejahtera (PT FAS) is an Indonesian consulting and advisory firm specializing in Human Resources, Legal & Regulatory Compliance Advisory, Governance, Risk Management, Compliance (GRC), Organizational Development, and Strategic Leadership Architecture.

Established on 28 October 2022, PT FAS was founded to help organizations strengthen governance, improve leadership effectiveness, enhance organizational performance, and build sustainable systems that support long-term growth.

In today's increasingly complex environment, organizations require more than operational excellence. They require clarity of authority, accountability, governance, and execution.

PT FAS assists organizations in transforming complexity into clarity through integrated consulting solutions and the ISLA Framework (Integrated Strategic Leadership Architecture).

VISION

To become a trusted strategic partner in building resilient, ethical, sustainable, and high-performing organizations across Indonesia and beyond.

MISSION

- Strengthen governance and accountability systems.
- Develop leadership capabilities that drive sustainable performance.
- Improve organizational effectiveness through integrated HR systems.
- Support legal and regulatory compliance readiness.
- Deliver practical and measurable consulting solutions.

OUR CORE VALUES

Integrity

We uphold ethical conduct, honesty, and professionalism in every engagement.

Excellence

We continuously pursue quality, innovation, and improvement.

Accountability

We take ownership of commitments and results.

Sustainability

We focus on long-term organizational success.

Collaboration

We work alongside our clients as strategic partners.

OUR CONSULTING PHILOSOPHY

Many organizations invest heavily in technology, processes, and talent. Yet organizational challenges continue to emerge.

Through observation across various organizational settings, we have found that recurring problems often originate from the same root causes:

- Unclear authority
- Weak accountability
- Fragmented leadership
- Misaligned performance systems
- Inconsistent governance
- Growth without supporting structures

PT FAS focuses on addressing these root causes through integrated organizational architecture rather than isolated solutions.

OUR SERVICES

HUMAN RESOURCES CONSULTING

We assist organizations in building effective people management systems that support performance and growth. Services include:

- Organizational Structure Design
- Job Analysis & Job Description Development
- Job Evaluation
- Competency Framework Development
- Workforce Planning
- Talent Management & Succession Planning
- HR Audit
- HR Policies and Procedures
- Organizational Development

PERFORMANCE MANAGEMENT CONSULTING

We help organizations establish performance systems that align strategy with execution. Services include:

- KPI Development & Cascading
- Balanced Scorecard Alignment
- Performance Management System Design
- Management Dashboard Development
- Performance Evaluation Frameworks

OKR CONSULTING SERVICES

Organizations often struggle to translate strategic priorities into measurable execution. We support organizations through:

- OKR Design

- Strategic Alignment Workshops
- Departmental OKR Development & Cascading
- Leadership Coaching
- OKR Review Processes
- Execution Monitoring

LEGAL & REGULATORY COMPLIANCE ADVISORY

Our advisory services help organizations strengthen internal governance documentation and regulatory-compliance readiness. This is a governance-support service, not a substitute for formal legal representation — for matters requiring litigation, notarial acts, or formal legal opinion, we coordinate with licensed legal partners (advokat/law firm) as needed. Services include:

- Corporate Governance & Policy Review
- Internal Policy and SOP Development
- Compliance Readiness Assessment
- Governance Documentation
- Regulatory Advisory & Coordination with Licensed Legal Counsel

GOVERNANCE, RISK & COMPLIANCE (GRC)

We assist organizations in building sustainable governance and risk management systems. Services include:

- Governance Framework Development
- Enterprise Risk Management
- Risk Assessment & Risk Register Development
- Internal Control Frameworks
- Compliance Programs
- Accountability Architecture
- Delegation of Authority Design

THE ISLA FRAMEWORK (INTEGRATED STRATEGIC LEADERSHIP ARCHITECTURE)

ISLA is the flagship framework developed by PT Forisa Abadijaya Sejahtera. The framework integrates strategy, leadership, governance, organizational structure, human capital, risk management, and performance systems into one unified architecture.

THE ISLA FRAMEWORK

Integrated Strategic Leadership Architecture — 8 Interconnected Components

Strategy → Leadership → Governance → Structure → People → Risk → Performance → Improvement

Why ISLA Matters

Organizations often attempt to solve performance issues through isolated initiatives. Examples include:

- Implementing KPIs without governance.
- Implementing OKRs without leadership alignment.
- Restructuring departments without clarifying authority.
- Improving compliance without strengthening accountability.

ISLA addresses these gaps by aligning the entire organizational system.

CONSULTING METHODOLOGY

Our engagement follows a structured five-stage process designed to move from diagnosis to sustainable, self-driven execution:

INDUSTRIES WE SERVE

PT FAS supports organizations across multiple sectors:

- Manufacturing
- Trading & Distribution
- Retail
- Professional Services
- Education
- Healthcare
- Non-Profit Organizations
- Family Businesses
- Emerging Enterprises

REPRESENTATIVE PROJECT EXPERIENCE

The following examples represent consulting engagements within HR, Governance, Leadership, and Organizational Development disciplines. Client identities are withheld under confidentiality agreements; scope indicators are provided to reflect the scale of work undertaken.

Organizational Structure Review & Redesign

Facilitated organizational structure assessments and redesign initiatives to improve accountability, reporting relationships, and decision-making effectiveness.

Scope indicator: Retail business, covering store-level and operational management structures.

KPI Architecture Development

Developed integrated KPI frameworks linking departmental performance indicators with strategic objectives and organizational priorities.

Scope indicator: Multi-store retail operation, covering store management, sales, operational, and support functions with individual-level KPI cascading.

OKR Alignment Programs

Supported leadership teams in establishing OKR systems to improve strategic execution and organizational focus.

Scope indicator: Business leadership and operational teams, with strategic objectives translated into measurable operational targets.

Governance & Accountability Framework

Designed governance structures and accountability mechanisms to improve organizational transparency and decision effectiveness.

Scope indicator: Owner-led business environment, focusing on role clarity, escalation mechanisms, accountability, and management oversight.

HR Policy & SOP Development

Developed HR policies, procedures, and governance documents to support organizational consistency and compliance.

Scope indicator: HR and operational management processes, including attendance, performance management, recruitment, employee evaluation, and operational procedures.

Leadership Alignment Workshops

Facilitated executive and management discussions focused on organizational alignment, authority clarification, and leadership effectiveness.

Scope indicator: Management and supervisory teams, focusing on leadership roles, delegation, communication, escalation, and performance accountability.

Authority Matrix Development

Designed authority and decision-right frameworks to reduce ambiguity and strengthen accountability.

Scope indicator: *Store and operational management functions, clarifying decision rights, escalation paths, and management responsibilities.*

Organizational Effectiveness Assessments

Conducted reviews of organizational systems, structures, and leadership practices to identify improvement opportunities.

Scope indicator: *Multi-unit retail organization, assessing organizational structure, manpower productivity, leadership effectiveness, performance management, and operational execution.*

YANTO GOUTAMA

Founder & Principal Consultant

Yanto Goutama is the Founder and Principal Consultant of PT Forisa Abadijaya Sejahtera.

His professional focus centers on Organizational Architecture, Strategic Leadership, Human Resources, Governance, Risk Management, Compliance, and Performance Management Systems.

He is particularly interested in helping organizations address fundamental organizational challenges such as unclear authority structures, governance gaps, accountability issues, leadership bottlenecks, and performance misalignment.

Through the development of the Integrated Strategic Leadership Architecture (ISLA) Framework, he advocates a systems-based approach that integrates strategy, leadership, governance, organizational design, and performance execution.

Memiliki pengalaman profesional dalam **Human Resources, Governance, Risk & Compliance, Strategic Business Management, dan Organizational Development**, dengan pengalaman khusus di bidang GRC sejak 2024.

"Sustainable organizational performance is achieved when leadership, governance, people, structure, and execution operate in alignment."

WHY ORGANIZATIONS ENGAGE PT FAS

Organizations typically engage PT FAS when they seek answers to questions such as:

- Why are decisions taking too long?
- Why are leaders overloaded with operational issues?
- Why are KPIs not improving performance?
- Why do governance initiatives fail?
- Why is accountability difficult to enforce?
- Why does growth create confusion rather than effectiveness?

Our role is not merely to provide recommendations. Our role is to help organizations build systems that prevent these challenges from recurring.
